

March 25, 2013

Dear Wauwatosa Lions Club,

Congratulations on reaching this amazing milestone in your organization! For 75 years, you have been serving and assisting the Wauwatosa community and its people and have touched countless lives.

You serve and support programs that assist people who are visually impaired by organizing eyeglass recycling stations, supporting Leader Dogs for the Blind, and providing drivers for people who have received cornea transplants.

Over time your service has expanded to help many more people. One way you have done this is through support of Wauwatosa's youth by supporting the Boys Scouts and Cub Scouts of Milwaukee, as well as providing scholarships to high school students.

You helped form a local Leos Club, encouraging local youth to participate in community building and the Wauwatosa School District's Project Lead the Way.

Those who are hearing impaired or have diabetes also benefit from your presence through your backing of organizations such as the American Diabetes Association and the Wisconsin Lions Hearing Foundation.

The City of Wauwatosa is directly helped by your support of the Wauwatosa Community Food Pantry, the Wauwatosa Library, and National Night Out, to name a few.

Finally, you give back to the Lions Club International Foundation, the largest service organization in the world, so that you may still help those who are not near you.

Once again, congratulations on accomplishing 75 years of service to Wauwatosa and its people. We thank you for the continual support you have given to our community.

Sincerely,

A handwritten signature in blue ink that reads "Theresa M. Estness".

Theresa M. Estness
